

Move shot

Please note that if you move shot backward, keyframes will be moved back and might overlap with existing keyframe

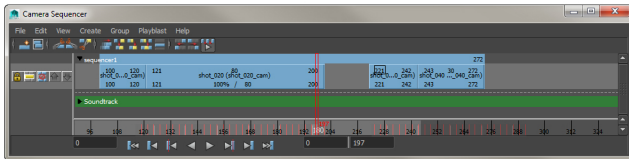

Shot and keyframes (from shot's start frame to end of timeline) will be moved.

1. Select shot you want to move
2. Enter number of frames
3. Apply

Ex. Move shot_030 backward 20 frames. Enter -20

Current time line

Shot_030 and keyframes from 221 will be moved back for 20 frames.

If there are any keyframes between 201 and 220, keyframes will be overlap.
