

1. Trim head

Select a shot and enter new CutIn that has greater value than current value to trim the head.
Press Apply

Original Timeline

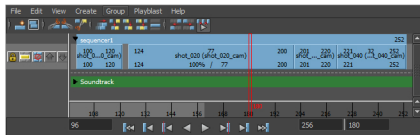

Ex. change CutIn on shot_020 from frame 121 to 124

With linked shot checked
next shot will be extended
to fill gap

shot_020 will be trimmed to 124 and leave
a gap between shot_010 and shot_020

shot_020 will be trimmed to 124
and shot_010 will be extended to fill the gap

All keyframes remain the same
